BRIGHTEST DAY #0 \$3.99 DC's new bi-weekly (that's twice a month) mini debuts! Written by some guy named Geoff Johns.

THE FLASH #1 \$3.99 Very excited about this. A "Brightest Day" book! Great Francis Manapul art!

BATMAN: ARKHAM ASYLUM - MADNESS HC \$19.99 When Sam Keith gets a GN done, it's definitely worth a look.

DOC SAVAGE #1 \$3.99 Splintering off from DC's First Wave comes new tales of the pulp icon.

THE SPIRIT #1 \$3.99 Also from First Wave. Whoever had the great idea to get Mark Schultz to write this character deserves a cookie.

DV8: GODS & MONSTERS #1 (of 8) \$2.99 Always liked these characters. Hopefully Brian Wood can do something cool with 'em.

NEIL YOUNG'S GREENDALE HC \$19.99 The rock icon himself oversees this graphic companion to his Greendale album.

By Josh (Unknown Soldier) Dysart and Cliff (tons of great stuff) Chiang.

TURF #1 (of 4) \$2.99 Gangsters, vampires and aliens from one of the UK's most beloved personalities (Jonathan Ross!) and Tommy Lee Edwards. Looks great!

THE LIGHT #1 (of 5) \$2.99 Spooky atmospheric horror from Brett (Surrogates) Weldele and some other guy!

MAGDALENA #1 \$3.99 New ongoing featuring popular Top Cow gal.

NEW AVENGERS: FINALE \$4.99 Bendis. Hitch. The end of all current Avengers titles. Okay!

BLACK WIDOW #1 \$3.99 Marjorie Liu & Daniel Acuna bring she whom I daresay is the Marvel hero most deserving her own title.

All of Liu's writing for Marvel so far has exceeded expectations, so I'll be very interested to see how this one shapes up. Recommended!

PHILIP K DICK'S ELECTRIC ANT #1 (of 5) \$3.99 by David Mack and Pascal Alixe.

DEADPOOL CORPS #1 \$3.99 by Rockin' Rob Liefeld himself.

SPIDER-MAN FEVER #1 (of 3) \$3.99 If you know who Brendan McCarthy is, you know how awesome this is going to be. Starring Spidey & Dr. Strange!

SAVAGE AXE OF ARES One Shot \$3.99 Love this character. Glad he's not going anywhere post-Siege.

NEW AVENGERS: LUKE CAGE #1 (of 3) \$3.99 Worth it for the great Eric Canete art alone.

AVENGERS: THE ORIGIN #1 (of 5) \$3.99 Don't know why this is necessary, but okay. It's Joe Casey and Phil Noto, so it'll read and look good enough.

CAPTAIN AMERICA/BLACK PANTHER: FLAGS OF OUR FATHERS #1 (of 4) \$3.99 by Hudlin & Cowan.

MARVEL ZOMBIES 5 #1 (of 5) \$3.99

WORLD WAR HULKS One Shot \$3.99 Follow-up to the Fall of the Hulks.

IRON MAN LEGACY #1 \$3.99 New 2nd ongoing by Fred Van Lente and Steve Kurth. With all this Iron Man product, you'd think there's a movie coming out soon and Marvel is greedily trying too hard to exploit the attention for every last penny. Or something.

H.O.H. #1 (of 2) \$3.99 Hulked out heroes.

SHIELD #1 \$3.99 Now THIS is one to get excited about. The history of S.H.I.E.L.D.! Can you say "Leonardo Da Vinci, Agent of SHIELD? Yeah!"

FATHOM: BLUE DESCENT #1 \$2.99

CROSSED TP \$24.99 Garth Ennis' neo-zombie epic finally collected!

COLD SPACE #1 (of 4) \$3.99 New sci-fi written by SAM JACKSON. Yes, THAT Sam Jackson.

PRIDE & PREJUDICE & ZOMBIES: THE GRAPHIC NOVEL \$14.99

GREEN HORNET YEAR ONE #1 \$3.99 Here's a novel idea-- why not wait to see how the main series that hasn't even debuted yet does before franchising out?

KEVIN SMITH'S KATO #1 \$3.99 See above. Not even written by Kevin Smith.

WILSON HC \$21.95 Well, hello there, new book by Dan Clowes. Hot damn!

WEATHERCRAFT HC \$19.99 Wow, and new Jim Woodring, too. It's like Christmas!

ASHLEY WOOD'S F.I. #1 \$9.99 I'd be remiss in my duties if I didn't remind you just how many books Ashley Wood has solicited that never finish or come out. Like, a lot. But I like them when they show.

BODYWORLD HC \$27.95 Completing the trifecta of incredibly important books solicited this month, it's Dash Shaw's beloved webcomic seeing print. And the word on the street is that it's amazingly designed. Get excited!
